## Geneva Motor Show 2018: ŠKODA AUTO's presentation in pictures

- › VISION X offers an outlook on the expansion of the SUV model family
- › FABIA: World premiere of the comprehensively revised small car
- › KODIAQ Laurin & Klement: Top version of the successful SUV model
- › ŠKODA Innovation Tunnel: New concept provides a closer look at the details of ŠKODA's current models

Mladá Boleslav, 6 March 2018 – ŠKODA AUTO presents a pioneering concept study and a host of model innovations at the International Geneva Motor Show (6 –18 March 2018). The highlight of the brand's presentation is the unveiling of the ŠKODA VISION X study, providing an outlook on the advanced development of its model range in the SUV segment. The comprehensively upgraded ŠKODA FABIA and ŠKODA KODIAQ Laurin & Klement – the new flagship model in the successful series – are also celebrating their world premiere. The Czech car manufacturer gives an interactive insight into the technology, materials, quality and 'Simply Clever' solutions of its models through the ground-breaking Innovation Tunnel forming the heart of the exhibition stand located in Hall 2.
