## Simply Clever: Sophisticated features making everyday life easier

- › KAMIQ is the first model in its segment to boast automatic door-edge protection
- › Removable LED torch in the boot – as standard from Ambition trim level upwards
- › Electric tailgate and electrically retractable tow bar

The ŠKODA KAMIQ offers a variety of intelligent solutions for little everyday car-related challenges. Door-edge protection, which cannot be found anywhere else in the city SUV segment, protects the car itself as well as vehicles parked next to it from dents and scratches when opening the doors. From Ambition upwards, every KAMIQ is equipped with a removable LED torch in the boot. An electrically retractable tow bar is available as an option.

The ŠKODA KAMIQ is the first vehicle in its segment to come with optional clever door-edge protection. This deploys automatically when opening the doors and protects the car itself as well as vehicles parked next to it. This feature, which is known from higher segments, can be found on all four doors of the new city SUV and not only protects the car in tight parking spaces, but saves parents a lot of stress too. The optional electric tailgate ensures easy loading of the boot. It opens and closes automatically at the touch of a button on the tailgate, on the remote-control key, or on the driver's door, which prevents, for example, fingers or even clothes getting dirty. It can also be closed with ease by gently pulling on the open tailgate thanks to its integrated Tip-To-Close function.

In addition, the KAMIQ offers a removable LED torch in the boot as standard from the Ambition trim level upwards. An electrically retractable tow bar is available as an option. One push of the corresponding button in the boot is all it takes to effortlessly deploy the tow bar and fold it away again after use.

The new integrated funnel in the lid of the windscreen washer tank prevents spills, making it considerably easier to fill up. The ŠKODA-typical ice scraper in the fuel filler flap also boasts a tyre tread depth gauge.

### Selected Simply Clever features

- › Door-edge protection
- › Removable LED torch in the boot
- › Electrically retractable tow bar
- › Electric tailgate incl. Tip-To-Close function

## ŠKODA AUTO

- › was founded during the pioneering days of the automobile in 1895, making it one of the longest-established car companies in the world.
- › currently offers its customers nine passenger-car series: the CITIGO, FABIA, RAPID, SCALA, OCTAVIA, KAROQ, KODIAQ, as well as the KAMIQ and the SUPERB.
- › delivered more than 1.25 million vehicles to customers around the world in 2018.
- › has been part of Volkswagen Group since 1991. Volkswagen Group is one of the most successful vehicle manufacturers in the world. In association with the Group, ŠKODA AUTO independently develops and manufactures vehicles, as well as components such as engines and transmissions.
- › operates at three locations in the Czech Republic; manufactures in China, Russia, Slovakia, Algeria and India mainly through Group partnerships, as well as in Ukraine and Kazakhstan with local partners.
- › employs over 39,000 people globally and is active in more than 100 markets.
- › is pressing ahead with the transformation from a traditional car manufacturer to the 'Simply Clever company for the best mobility solutions' as part of the ŠKODA 2025 Strategy.
