ŠKODA CITIGO^e iV

APPLICATIONS SPECIFIC TO CITIGO^e iV

ŠKODA CONNECT

Allows users to control their vehicle from anywhere

- › Check on the battery's charging status
- › Start/stop charging the battery
- › Turn the air conditioning on/off – when the charging cable is plugged in

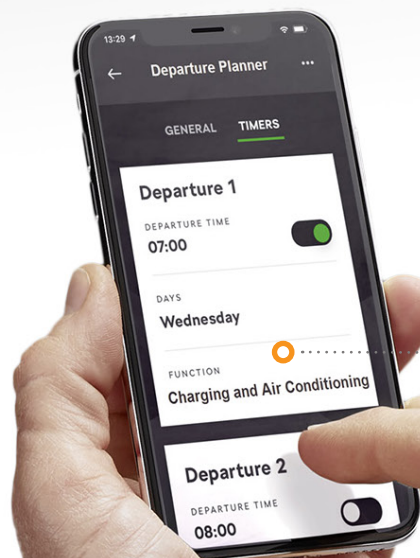

MOVE&FUN

Allows users to check and adjust system settings directly in the car

E-MANAGER

- › Set the departure time via the app
- › Switch the air conditioning on/off
- › Charge the battery (if the vehicle is connected to the power grid) – both the air-conditioning and charging functions can be used at the same time
- › Provides an overview of the vehicle range, energy flow (dis-/charging) and brake energy recovery
