# ŠKODA SUPERB iV

## INFOTAINMENT AND APPLICATIONS SPECIFIC TO SUPERB iV

### ŠKODA CONNECT APP

A digital link to the car via a mobile phone, tablet or PC

#### INDEPENDENT AIR CONDITIONING ACTIVATION

- › Before starting a journey, users can remotely switch on the air conditioning in the car
- › Users can decide whether to use electricity from the power grid (an external source of energy) or from the car battery to power the air conditioning

#### DEPARTURE-TIME SETTING

- › Users can set the departure time via the app and, at the same time, remotely switch the air conditioning on/off and/or charge the battery if the vehicle is plugged into the mains
- › These settings can be configured for single or repeated use

#### INFOTAINMENT E-MANAGER

Allows users to set specific SUPERB iV functions via the car's infotainment system

- › Set the departure time
- › Interior temperature setting
- › Start/stop charging
- › Low-battery alert for high-voltage battery
- › The car's high-voltage battery can be charged at a time when it is cheaper to use the power supply

#### BATTERY CHARGING

- › Users can remotely start or end the battery charging process if the vehicle is plugged into the mains
- › The battery's current state of charge is also displayed on the screen
