## The ŠKODA KAROQ SPORTLINE: dynamic top-of-the-range model

- › Exclusive to the series with a 2.0 TSI petrol engine and 140 kW (190 PS)
- › Exterior with distinctive black finishing touches and 18-inch wheels as standard
- › Black design features in the interior and sports seats with ThermoFlux covers

Mladá Boleslav, 30 November 2021 – The KAROQ SPORTLINE is the range-topping model of the successful ŠKODA SUV. Apart from the 1.0 TSI, it is available with any of the engines in the range, while the most powerful engine is exclusively reserved for this KAROQ variant. The 2.0 TSI petrol engine delivers 140 kW (190 PS), which is transferred to all four wheels via a 7-speed DSG as standard. Visually, the KAROQ SPORTLINE can be identified by numerous black design features, and the interior is also dominated by black sports styling.

The range-topping model of the updated KAROQ can immediately be recognised by the SPORTLINE-typical black design features. These include the gloss black ŠKODA grille, which provides a stunning contrast to the body-coloured front apron. The Black pack, sporting gloss black window frames and roof rails, is part of the standard equipment. Additional black design details include the rear diffuser on the body-coloured rear apron, the wing mirror caps and the 18-inch Procyon alloy wheels, which feature an Aero trim, as do the optional 19-inch Sagitarius alloys. The rear side windows and the rear window are tinted (SunSet), and the front wings are adorned with a SPORTLINE badge. The standard equipment of the KAROQ SPORTLINE also includes full-LED Matrix headlights.

### **Black ThermoFlux seat covers**

The interior is characterised by black sports styling, with Piano Black decorative strips on the instrument panel and a carbon-fibre-effect decor on the doors. The roof lining is also black, as are the breathable ThermoFlux covers of the sports seats with integrated headrests. The leather gearstick features silver contrasting stitching. The three-spoke multifunction sports steering wheel is adorned with a SPORTLINE badge and the front door sill trims bear KAROQ lettering. The LED ambient lighting is a standard feature in the sporty range-topping model and now also illuminates the rear door panels in one of the ten colour options.
