The ŠKODA FABIA MONTE CARLO: dynamism at its purest

- › The popular MONTE CARLO edition embodies a sporty lifestyle
- › Black exterior elements and red interior accents
- › Four engines with power outputs ranging from 59 kW (80 PS) to 110 kW (150 PS)

Mladá Boleslav, 15 February 2022 – With the launch of this latest MONTE CARLO variant, ŠKODA completes its new, fourth-generation FABIA range. The iconic name ŠKODA initially introduced exclusively for the FABIA has symbolised a sporty lifestyle since 2011. It commemorates the brand's many victories at the legendary rally. The black body details underscore the new FABIA's dynamic appearance, while the interior is characterised by red accents and carbon-look detailing on the armrests and dashboard. A choice of four engines deliver between 59 kW (80 PS) and 110 kW (150 PS).

The sporty MONTE CARLO variants have contributed to the FABIA's success since 2011. They are inspired by the brand's numerous motorsport victories at the legendary rally and complement the Active, Ambition and Style trim levels. The powertrain options available for the MONTE CARLO variant include three triple-cylinder 1.0-litre engines and a four-cylinder 1.5 TSI, with power outputs ranging from 59 kW (80 PS) to 110 kW (150 PS).

Dynamic proportions and an emotive design with black detailing

Built on Volkswagen Group's MQB-A0 modular platform, the fourth-generation FABIA features more dynamic proportions and a more emotive design. This look is further enhanced by details such as the black ŠKODA grille, model-specific front and rear aprons, a black rear diffuser and black alloy wheels with a diameter of 16 to 18 inches. The burnished black Proxima (16-inch) and Procyon (17-inch) alloy wheels are exclusive to the FABIA MONTE CARLO.

Sports seats as standard, digital instrument cluster with a specific, more dynamic background for the layouts

The now larger interior features sports seats with integrated headrests and a three-spoke multifunction steering wheel as standard. The interior is predominantly black, with the decorative dashboard strip, parts of the centre console and door handles providing a touch of red. The armrests on the front doors and the lower part of the dashboard are finished in a carbon-fibre look. The FABIA MONTE CARLO can be equipped with all the safety, assistance and comfort features as well as infotainment systems available in the range. The optional digital instrument cluster provides a specific, more dynamic background for the layouts.

Monte-Carlo is a registered trademark by Monaco Brands.
